WOMEN'S HEALTH

Discover Labs is a high-complexity, CLIA accredited laboratory that helps clinicians and health care providers identify the pathogens and underlying causes of disease quickly and precisely. We believe the highest quality care is achieved through fast, accurate and reliable laboratory results.

At Discover Labs, we provide OB/GYN clinicians with the latest in molecular diagnostic testing, allowing for fast, accurate, and comprehensive screenings across a broad spectrum of pathogens and genetically influenced conditions.

Women's Health Panel Includes:

- 5 panels comprised of 32 total targets
27 pathogens and 5 flora
- Bacterial Vaginosis
- Aerobic Vaginitis
- Candida
- STI

Now you can provide patients with the quickest and most accurate diagnosis possible.

- Simple sample collection utilizing a single vaginal swab
- Same day results
- Identifies pathogens which are difficult to culture
- Yields greater than 95% analytical sensitivity and specificity

Pathogens Detected

A. vaginae	L. iners
Bacterial Vaginosis	L. jensenii
C. albicans	M. curtisii
C. glabrata	M. genitalium
C. krusei	M. hominis
C. lusitaniae	M. mulieris
C. parapsilosis	Megasphaera 1
C. trachomatis	Megasphaera 2
C. tropicalis	N. gonorrhoeae
E. coli	P. bivia
E. faecalis	S. agalactiae (Group B)
G. vaginalis	S. aureus W/ MRSA
H. ducreyi	T. pallidum
Herpes simplex 1	T. vaginalis
Herpes simplex 2	U. urealyticum
L. crispatus	
L. gasseri
